

## The Church Vital-O-Meter

### ***Scoring Your Survey from the Other side of this Sheet***

Remember, this brief survey takes the pulse of your congregation. Like a pulse, it gives only a rough estimate of how strongly your "heart" is beating.

1. Complete the Questions on the other side.
2. Score each item with  
Strongly Agree = 4, Agree = 3, Unsure = 2, Disagree = 1,  
and Strongly Disagree = 0.
3. Then add up the value for all six questions for a total score.

The total score theoretically can range from 0 to 24, though probably most will score above 12.

4. Here's how to evaluate your score for the Congregational Vitality Ranking:

24-22 Among the most vital congregations  
21-19 Have many areas of vitality  
18-16 Some vitality present  
15-11 The church is surviving but not very vital  
0-0 A vitality transfusion needed from the Holy Spirit!

So... how did you do?

This survey can be completed and submitted online at [www.UCCVitality.org](http://www.UCCVitality.org) – The Church Vital-O-Meter. You can then see how other churches rank themselves.

If you think your congregation should be more vital, consider being part of the Missouri Mid-South conference ***Ready, Set, Grow Project!***
